

Project Demo Planning

Date	20 March 2026
Team ID	SWTID-2026-4593
Project Name	Machine Learning–Based Credit Card Approval Prediction System
Maximum Marks	1 Mark

Project Demo Planning:

A well-structured demo plan ensures that the team presents the project effectively, covering all key aspects in a clear and organized manner. This document outlines the plan for demonstrating the project, including the flow of the demo, key features to highlight, and responsibilities of each team member.

S.No	Demo Section	Description	Duration (mins)	Responsible Member
1	Welcome and Project Overview	Introduction of the team, demo objectives, and overall project context.	2	Hari Bellamkonda
2	Data Management & ML Workflow	Walkthrough of data collection, preprocessing, and model development lifecycle.	4	Akili Venkata Siva Sai Srikar
3	Web Application Design & Tech Stack	Explaining the architectural flow, user interface, and backend integration.	3	Kesha Vardhan Chinni
4	Live Core Feature Demonstration	Showing user authentication, credit card application submission, and real-time approval results.	5	Hari Bellamkonda
5	Flask App Deployment & Scalability	Discussion on deployment process on Render, database reliability, and future scaling plans.	3	Kesha Vardhan Chinni
6	Conclusion & Future Enhancements	Summary of achievements, potential additions (e.g., Explainable AI), and concluding remarks.	3	Akili Venkata Siva Sai Srikar

Demo Flow Summary:

Step	Activity	Notes
1	Introduction & Problem Statement	Highlighting manual effort reduction.
2	Solution Overview	Explaining the choice of Python/Flask and ML model.
3	Live Feature Demonstration	Full applicant experience from login to approval result.
4	Q&A Session	Prepare for questions on data privacy and model interpretability.
